

HAVE YOU HEARD ABOUT TEARFUND IRELAND'S GREAT NEW ENERGY DEAL FOR CHURCHES?

Want to reduce your energy bill?

Want to help Tearfund Ireland
protect those most vulnerable
to climate change?

WE BELIEVE IN CARING FOR THE ENVIRONMENT...

The earth and all that is in it was created by God and he has entrusted its care to us. Therefore, we have a responsibility to steward the earth's resources (see Psalms 24:1; 115:16).

Sustainability and the Global South

We all feel the effects of changing weather patterns, but communities in the global south are worst-affected by the impacts of the changing climate. Through our work in the developing world, we've seen how changing weather patterns affect those who are least resilient.

By taking even small steps in our lifestyle choices, we can play a part in reducing the effects of climate change and help create a more sustainable world. Tearfund Ireland have identified a way we can help your church create a more sustainable future.

Energy Affinity Offer for Tearfund Ireland

Tearfund Ireland have agreed an affinity rate with Bord Gáis Energy for the supply of electricity and gas. Bord Gáis Energy is one of Ireland's leading energy suppliers serving over 50,000 commercial customers. We have selected Bord Gáis Energy as our partner and they will offer an affinity rate for churches and businesses who support Tearfund Ireland.

Energy Efficiency Audit

An added benefit for larger churches and businesses is the provision of an energy audit which can be carried out for buildings which consume higher volumes of electricity. Subject to qualifying criteria, the audit will enable Bord Gáis Energy to identify ways you can reduce your energy consumption.

Opportunity for Tearfund Ireland

For every church that avails of the Energy Affinity Offer, Bord Gáis Energy will provide a small contribution to Tearfund Ireland. So, by availing of the offer you will save money, help the environment and help Tearfund Ireland.

Tearfund Ireland are helping churches take a small step toward a more sustainable world.

Opportunity for Churches

If a church has multiple buildings on a single business account (church, church hall and rectory), all meters can avail of the offer.

STEP 1: Submit your details on the Tearfund Ireland website

STEP 2: Avail of the affinity offer provided by Bord Gáis Energy

STEP 3: Reduce your energy costs

STEP 4: Conserve energy over the long term
